Modular technology, agile working practices, customised solutions

Each company and each manufacturing process is unique. Our appreciation of this fact is found in our drive to develop a simple and practical solution for every technical challenge. For more than 25 years we have been designing and developing innovative automated CAD/CAM controlled cutting systems using waterjet and CNC technology – always implemented in combination with the most up-to-date digital technology designed by our in-house software engineers.

we think in **cutting** solutions.
